

INDEX, 116th Regiment O. V. I.

Note: Listing a page number twice for the same name indicates that the name is mentioned in the “text” as well as the casualty list; or on both the casualty and prisoner lists.

Note: A person may be indexed more than once. Sometimes just Rank or initials are mentioned rather than the first name. I have indexed accordingly. When it is clear within the text to whom Wildes’ is referring, page numbers are assigned to that person by name.
